Medical Coding Workbook For Physician Practices And Facilities 2014-2015 Edition

Synopsis

Medical Insurance Coding Workbook for Physician Practices and Facilities, 2014-2015 Edition builds coding expertise by providing thorough practice, tips, and reinforcement in code selection and linkage. This supplementary workbook offers extensive opportunities for students to practice ICD-10-CM and ICD-10-PCS(diagnoses) and CPT/HCPCS (procedures) coding using the standard code reference manuals. Unique coding linkage coverage reviews and practices reporting diagnosis and procedures codes correctly together for compliant coding. The exercises build from one-line diagnostic/procedural statements to case studies. The Workbook also contains three comprehensive examinations covering ICD-10-CM,ICD-10-PCS, CPT/HCPCS, and Code Linkage topics. Medical Insurance Coding Workbook for Physician Practices and Facilities, 2014-2015 Edition is designed to help users master the information needed to pass the coding certification exams and become employable. The precise and tightly focused nature of the workbook helps instructors to readily gauge studentsâ™ levels of coding proficiency.

Customer Reviews

I found this workbook completely useless. There are no answers in the book so you have to actually ask your instructor for the answers or to review your work. I go to school online so I would have had to either type up the answers or scan the pages into a PDF file and then send to the instructor. Everything that was in the book was also provided to us in our 'Module Overview' word for word. Out of all of the classes that I have taken, I think that this book is just to boost the school's

bookstore revenue. Worthless, did not use it once!

This book has no answers to any of the exercises. Unless you are taking a course where this is an adopted text and you can get answers from an instructor, look elsewhere. Also, some of the reviews are simply a repeat of the chapters' titles.
