# Space Pioneers (History Of Space Exploration)

## Synopsis

The world held its breath in July 1969 as it watched the first humans leave footprints on the Moon. Decades later, the lure of space exploration still sparks our imaginations. How did it all begin, and where else will it lead? This series chronicles the history of space exploration, from the invention of the rocket in China in the thirteenth century to the latest in space probes and technological advancements. Vivid images, informative text, and captivating quotes from those who experienced space exploration firsthand beckon readers to discover all they can about The History of Space Exploration.
