## Customer Reviews

We have almost all of the other Disney Read Along Storybooks, and I'm not a fan of this one's CD. The audio has way too much of the creepy old woman's voice, which my 4 year-old daughter doesn't like. It would have been better had the story included a few pages of the happy dancing scene with Snow White and the dwarves and shortened the queen's lines. The narration and pacing are fine, the character voices are decent. Not a single voice is taken from the original movie, unlike most of the other Read Along CDs, where entire lines of dialogue are taken directly from the films. The actress who does Snow White's lines is pretty annoying and cheesy. Doc and Grumpy are the only dwarves with any lines. The book has lovely illustrations and page layouts, no complaints there. Definitely room for improvement on the CD though. Pretty disappointed, as my kids love listening to stories in the car!

Perfect read along. Love these books, storyline matches the movie and many of these use actual

voices in quotes while narrating the story. Another great add to the collection.

Granddaughters loved all the Read Along Books. Easy to follow along and keeping kids wanting to read more. Excellent educational product for young minds.

Our grandson has Downs Syndrome and loves Snow White; he is very interested in who the narrators are. Very nice

My 5 year old granddaughter loves it! Listens to it to and from ballet in the car each time I take her!

Such an awesome way for kids to learn the story instead of sitting them in front of a TV!!

We all the Snow White books. I bought one for my daughters and then me. Love them. Thanks

Very good product - exactly as described. Will reorder from this seller when we need to.
