Study Guide For 1Z0-450: Oracle Application Express 4: Developing Web Applications: Oracle Certification Prep

Synopsis

This Study Guide is targeted at IT professionals who are looking to become an Oracle Application Express Developer Certified Expert. The book provides information covering all of the exam topics for the Oracle Expert exam: "1Z0-450: Oracle Application Express 4: Developing Web Applications". The books in the Oracle Certification Prep series are built in lockstep with the test topics provided by Oracle Education's certification program. Each book is intended to provide the information that will be tested in a clean and concise format. The guides introduce the subject you'll be tested on, follow that with the information you'll need to know for it, and then move on to the next topic. They contain no drills or unrealistic self-tests to bump the page count without adding value. The series is intended to provide a concentrated source of exam information that is compact enough to be read through multiple times. This series is ideal for experienced Oracle professionals that are familiar with the topic being tested, but want a means to rapidly reinforce their existing skills and bridge any gaps in their knowledge. It is also an excellent option as a second source of information for candidates pursuing certification.

Customer Reviews

This book has all the contents of Oracle APEX but doesn't go much deep in explaining. As stated by author, this book is mostly for the users with prior knowledge of APEX. It has some good details, but I feel the overall content is inadequate. It doesn't specify what kind of approach is needed to prepare for exam.

The guide is good if you need a starting point and a compressive way to follow your advancement in

learning. I find it suited for beginners and it is not enough to pass to intermediate or to pass the exam. Extra sources of info are certainly needed.

I am satisfied with my purchase... Thanks
