Geometry, Grades 6 - 8 (Skill Builders)

Synopsis

Skill Builders are great tools for keeping children current during the school year or preparing them for the next grade level. A variety of fun and challenging activities provides students with practice and helps introduce basic skills to new learners. This full-color workbook contains appropriate passages and exercises based on national standards for sixth through eighth grade to help ensure that children master geometry math skills before progressing. Skill Builders combines entertaining and interactive activities with eye-catching graphics to make learning and reviewing fun and effective. The compact 6" x 9" size makes this book perfect for school, at home, or on the go. It features 80 perforated, reproducible pages and an answer key.

Age Range: 11 - 13 years

Grade Level: 6 - 8

Customer Reviews

So many students struggle with Geometry that I thought this booklet was exactly what I needed for my 7th grader. The begins with the essential formulas and then explains in a clear and consise manner various concepts. Oh and thanks for the quick delivery.

I didn't know that is a very small and thin book. It's half of letter size, and it has about 5 questions on 1 pages. The contents covers very basic that students need to know, but it has too little. Compared with other workbooks, spectrum series are better.

Great book for geometry basics. Very well put together. Each page is a mini lesson with easy to understand instructions. Definitions, examples, and practice.
