Customer Reviews

The way to navigate through a Japanese comic seems to be beyond me. The book is organized in the reverse from the Western format of front to back. This is easily learned but how the panels flow on the page (right to left and/or vertically -- up to down) is not optimal. This could be a terribly written story or I couldn't follow the panels to get the gist. We aren't taking great literature here but it's still frustrating not to be able to follow a simple story.

This had a total of nine pages with almost no story at all. Basically it is about a girl who likes to publically show off. There is a lot of nudity, but no story at all.

It is a good graphic novel to read.I would not let children read it and don't read it in front of them. It does have a lot of adult stuff.
