Customer Reviews

An easy read and very easy to understand. Know how your mind works with this book and apply what it says. I read it once but to make books like this actually work, you need to read them over and over until they become ingrained into your personality. I have yet to get into this habit. This book is a great start in your journey. I also recomend books by Napoleon Hill.

I absolutely love this book!! Such a awesome read as it helps the reader delve into his/her gut too get Some of that deep feelings and thinking dusted off and cranking. CON: just that he's a bit excessive on examples in others lives in comparison to his writing.

It's a good book albeit an old oneâ |maybe one of the first self help books before the big wave hit a few decades ago.

This book it's my personal psychologist.

great update
